PROFESSIONAL EXPERIENCE

Senior Midwife & Clinical Supervisor

French Medical Institute for Mothers and Children (FMIC)

January 2021 - Present | Kabul, Afghanistan

- Attended 450+ deliveries (380 normal, 70+ complicated cases), achieving zero maternal mortality and maintaining 98% successful breastfeeding initiation rate
- Supervise and mentor team of 8 junior midwives, conducting weekly training sessions on emergency obstetric care and BEmONC protocols
- Lead quality improvement initiative that reduced postpartum hemorrhage incidents by 35% through enhanced PPH management protocols
- Coordinate with obstetricians and anesthesiologists for emergency cesarean sections and complicated deliveries
- Provide family planning counseling to 200+ women monthly, achieving 85% contraceptive uptake among postpartum clients

Staff Midwife

MSF (Medecins Sans Frontieres) - Kunduz Trauma Center

March 2018 - December 2020 | Kunduz Province, Afghanistan

- Delivered comprehensive maternal care in conflict-affected region, attending 520+ deliveries including 90+ emergency cases
- Managed obstetric emergencies including PPH, eclampsia, shoulder dystocia, and breech presentations with high success rates

- Conducted community outreach programs reaching 1,500+ women with antenatal care education and family planning information
- Trained 12 community health workers on maternal danger signs and referral protocols, improving early detection of complications
- Maintained meticulous medical documentation and reporting for NGO compliance and program evaluation

Community Midwife

Afghan Institute of Learning (AIL) - Rural Health Program

June 2016 - February 2018 | Bamyan Province, Afghanistan

- Provided primary maternal health services in remote rural community, attending 280+ deliveries with limited resources
- Established village-based antenatal care clinics, increasing facility-based deliveries from 45% to 78% in catchment area
- Conducted home visits for high-risk pregnancies, providing individualized care plans and nutrition counseling
- Collaborated with local shuras (councils) to promote women's health education and overcome cultural barriers to care

EDUCATION
