PROFESSIONAL EXPERIENCE

Emergency Room Nurse | French Medical Institute for Mothers and Children (FMIC)

Kabul, Afghanistan | March 2021 - Present

- Provide comprehensive emergency nursing care to 30-40 patients per shift, including trauma cases, cardiac emergencies, and pediatric critical care
- Perform rapid triage assessments, reducing average patient wait time by 25% through efficient prioritization protocols
- Administer medications, manage IV therapy, and perform wound care with 100% accuracy in documentation
- Collaborate with multidisciplinary teams including physicians, surgeons, and specialists to optimize patient outcomes
- Train and mentor 4 junior nurses on emergency protocols and cultural competency in patient communication
- Maintain strict infection control standards, achieving zero hospital-acquired infections in assigned unit

Maternal and Child Health Nurse | HealthNet TPO (International NGO)

Herat, Afghanistan | June 2019 - February 2021

- Delivered prenatal, antenatal, and postnatal care to 500+ women in rural communities with limited healthcare access
- Managed high-risk pregnancies and assisted in 200+ deliveries, including emergency obstetric procedures
- Implemented community nutrition programs, screening 1,000+ children for malnutrition and coordinating treatment
- Conducted vaccination campaigns, achieving 95% immunization coverage in target communities
- Provided health education to mothers on infant care, breastfeeding, and family planning in Dari and Pashto

- Documented patient data using electronic health records (EHR) and prepared reports for donor organizations

Staff Nurse | Aftab Private Hospital

Kabul, Afghanistan | January 2018 - May 2019

- Provided bedside care to medical-surgical patients, monitoring vital signs and administering prescribed treatments
- Performed catheterization, wound dressing, and post-operative care with emphasis on pain management
- Educated patients and families on medication adherence, wound care, and lifestyle modifications
- Maintained accurate patient records and collaborated with pharmacy for medication reconciliation

EDUCATION

Bachelor of Science in Nursing (BSN)

Kabul Medical University - Kabul, Afghanistan | 2014 - 2018

- Graduated with Honors (GPA: 3.7/4.0)
- Thesis: "Maternal Health Outcomes in Rural Afghanistan: A Community-Based Approach"
